Apply to The Nearest Naval Recruiting Station or to the Department of Naval Services, OTTAWA.

More About the H. C. of L.

With all commodities soaring in price, it behoves the buyer to look for full value in every article.

When buying matches specify—

EDDY'S

Their quality is beyond question; but besides this, every box is a generously filled box.

Look out for short-count matches. There are many on the market.

Avoid imposition by always, everywhere, asking for EDDY'S.

Captain Frightened German Cruiser

Commander D. R. Kinneir, of the Pacific Steam Navigation Company, has died suddenly in Liverpool. Early in the year, he disappeared from his ship, while navigating the Straits of Magellan. Some time later, he escaped from a German cruiser, which did not dare to follow him. Thus his daring saved not only his ship, but also the lives of 300 sailors and 100 serfs who were on board. For his gallant seamanship Commander Kinneir received the D.S.O. from the King. His gold watch, given by the French government, and among other recognitions of his exploit, a silk Union Jack subscribed for by children.

"I am proud to say that my grandfather made his mark in the world," remarked a concealed youth. "Well, I suppose he wasn't the only man in those days who couldn't write his name," replied his friend.

BY OUR BLOOD WE LIVE

If you tire easily, are subject to cold hands or feet—if you catch colds readily or have rheumatic pains—your blood or circulation is probably at fault and you need

SCOTT'S EMULSION

OF THE PUREST COD LIVER OIL

which is nature's easily-assimilated food, to increase your red corpuscles and charge the blood with life-sustaining richness. Scott's creates warmth to throw off colds and gives resistance to prevent sickness. Always insist on SCOTT'S. Every Druggist has it.

SCOTT & BOWNE, Toronto, Ont.

Americans Ruin

Nervous System

Life Insurance Companies Say Health Is Deteriorating

We Americans, it seems, are little better physically than a race of molasses. Our muscles are flabby from lack of use and our nervous systems ruined from excesses. We are mostly too fat, and our average span of life is only 67 years. Yet despite these facts, those discriminating men who write life insurance and have the differentiating of good, bad and indifferent down to a science, insist that they are writing more life insurance upon American risks than upon the people of all the rest of the world put together, though the American life expectancy is only about one-fifteenth of the world's.

Those are a few of the facts revealed at the recent meeting in New York of the Association of Life Insurance Companies. The 200 delegates represented about 80 per cent. of the larger companies of the United States and Canada, which place the value of their life insurance at \$24 billion dollars of old time life insurance now in force in this country. —New York Herald.

WOMEN WHO SUFFER

Can Obtain New Health Through the Use of Dr. Williams' Pink Pills

Every woman at some time needs tonic. At special times unusual demands are made upon her strength. When she is overburdened with work which falls to her, her weakness and ill health will follow unless the blood is fortified to meet the need.

Weak women find in Dr. Williams' Pink Pills the tonic exactly suited to their needs. Most of the ills from which they suffer are due to bloodlessness, a condition in which the blood is not readily circulated. These pills save the girl who enters womanhood in bloodless condition, from year of misery, and afford needed and permanent relief to the woman who is bloodless, and therefore weak. Mrs. Wm. H. Wagner, Roanthal, Ont., writes: "I am the mother of my one child I suffered from a condition which most mothers will understand, without going into details. The doctor who was attending me said that as far as he could see, I had been of great help to me. I decided to try this medicine, and I can truly say I have been greatly relieved. Since I have made a complete cure and made life more enjoyable than it had been for a long time. I highly recommend suffering from the ailments of our sex should give Dr. Williams' Pink Pills a fair trial as I know from my own experience the great benefit that follows their use."

You can get these pills through any medicine dealer or by mail at \$10 cents a box or six boxes for \$2.50. Dr. Williams' Medicine Co., Blockville, Ont.

Silicium—In trying to please a woman what is the first thing to do? Cynics—Make a fool of yourself over her.

Relief for Suffering Everywhere. He who is ill is naturally miserable by the suffering he suffers from indigestion and has not tried Parmalee's Vegetable Pills can hardly know how easily and comfortably he can live with them. These pills will relieve where others fail. They are the result of long and patient study and are confidently put forward as a sure corrector of disorders of the digestive organs, from which so many suffer.

Seemed a Mistake

"I told Uncle Tom he was getting too old and feeble to attend to business. 'Did he take it kindly?' 'He threw me out of the office,'—Answers.

Warts are disfigurements that disappear when treated with Holloway's Corn Cure.

British Derivations

It is interesting to remark that Major-General Sir Frederick Maurice, who was quoted the other day as of opinion that the German peace proposal were a result of the fighting the British in the war, is the son of the grandfather of Frederick Denison Maurice, the famous English preacher.

In England, also, minister's sons are called "ministers' sons."

Lloyd George is not a minister's son, but his father was a Unitarian schoolmaster. He got his early education in a Unitarian school, and when he left school, married a wife from Mynydd-dyndyfed, Criccieth, and lives, when at home, at Brynawelon. Etymologically speaking, these are pretty solemn facts.—Life.

"Do you, Mr. Stacks, think that a rich man can go through the eye of a needle?"

"If I don't. I will, however, admit that my lawyers have dragged me through some very small loopholes."

All Wrong

Now, look here, "Alice," I know everything. You've been carrying on with another girl. I even know that his name is Rupert!"

"How ridiculous you are! First of all I haven't flirted with anyone, and secondly, his name isn't Rupert!"

From Up Among

The Yukon Snows

COMES ADVICE TO SUFFERERS TO USE DODD'S KIDNEY PILLS

Glacier Creek Lady Says They Have Been Her Stand-By for Sixteen Years and She Has Never Known Them to Fail.

Glacier Creek, via Dawson, Yukon, Can. (Special)—"North of fifty-three where doctors are long distances apart and those remedies that are in very present help in one of the most desolate and remote regions of the settlers, Dodd's Kidney Pills have established an enviable reputation. Hear what Mrs. A. Armstrong, a well-known resident of this place, has to say:

"Dodd's Kidney Pills have been my standby for sixteen years." Mrs. Armstrong states, "Both myself and my husband have had great faith in their medicinal qualities. When any of my friends complain of even a headache I treat them with Dodd's Kidney Pills and they never fail to do good."

"It always gives me pleasure to say a good word for Dodd's Kidney Pills."

Dodd's Kidney Pills cure all kidney ills from headache to rheumatism. Bright's Disease and heart disease. These troubles come from sick kidneys. That's why Dodd's Kidney Pills cure them.

The Lady Visitor (to friend just married)—"How are you not getting tired of married life, eh?"

"It isn't,"—Good gracious, no! It's most interesting, Jim paints, and I cook. Then the game is to guess what the things are meant for.

—London Opinion.

Instant Relief for LIVER TROUBLE

No liver sufferer can fail to benefit from the use of Dr. Cassell's Instant Relief. Its action is natural as nature, sure as science. It is a alleged document to ordinary liver trouble and more serious. These weaken the liver by forcing it, till it cannot work at all without the daily dose. Dr. Cassell's Instant Relief strengthens the liver, and puts the system to cure itself. Then cure is lasting.

Take Dr. Cassell's Instant Relief for constipation, biliousness, torpid liver, sick headache, dizziness, species before the eyes, flatulence and windy gripes, heartburn, impure blood, and that oil, heavy breathing which is a sure indication of liver trouble.

Ask for Dr. Cassell's Instant Relief. Price 50 cents. From all Druggists and Stereotypes.

Order direct from Dr. Cassell's, 15, McLean Street, Toronto. War tax 1 cent extra.

Dr. Cassell's Instant Relief is the companion preparation to Dr. Cassell's Tabloid.

Sole Proprietor: Dr. Cassell Co., Ltd., Manchester, England.

**Jas. Robertson, a well-known
and Highly Respected**

**Pioneer of Alberta is
called to his Reward**

The funeral of the late James
Robertson, who died of pneumonia
after an illness of a few days duration,
took place at Cochrane, on
Friday, 23rd March. An impressive
service was held at St. Mary's Church.
The Rev. F. Hermes paid a touching
tribute to the many admirable traits
of character of the deceased, being
a man of sound principles and lofty
ideals.

Mr. Robertson led a very active
life and attended to the minutest
details of his vast business interests,
by so doing he became one of the
successful stockmen of this district.

The funeral was largely attended
by old-time friends from Crossfield,
Airdrie, Sampsonton and Cochrane,
who attended to show their respect for
the man and his family. In January
2901, he married and has been settled
in this district ever since. His death
will be a great loss to the locality,
he being ever ready to help in every-
thing pertaining to the welfare of
the community.

He leaves a wife, one son and three
daughters to mourn the loss of a
devoted husband and loving father,
who have the heartfelt sympathy of
a wide circle of friends in their loss
and sad bereavement.

Church of the Ascension.—There
will be service on Sunday next,
March 25th.

Sunday School at 10 a.m.
Morning Prayer, & Sermon 11 a.m.

LOANS FOR LIVESTOCK

THE CANADIAN BANK OF COMMERCE is prepared to
encourage the development of the Western livestock industry
by extending liberal credits to good farmers to purchase breeder
and feeder livestock.

FINISH THE FEEDERS IN CANADA KEEP THE HEIFERS AT HOME

In 1915 about 45,000 head of feeder cattle were taken from
the Winnipeg stock yards for distribution among farmers in the
Northwestern States, representing a serious loss to Western
Canadian farmers.

We wish to assist in stopping this movement. Consult
us before selling unfinished stock. If you must sell, let us try
to find you a buyer at home and build up your own district.

S. H. BRAY, Manager, CROSSFIELD BRANCH.

The Farmer's Partner

This Company is farmer owned, operated and controlled.

It has perfect facilities for keeping in constant touch
with market conditions and prices.

It sells Grain and Live Stock for Farmers and profits
best when it secures highest prices for them. Through
its Co-operative Supplies Department it will buy for
the Farmer or his neighbors or their local organization
practically any commodity for use on the farm.

The results it secures makes it profitable to both.

Do not fail to get full particulars AT ONCE.

Steady Demand For Pork

There Seems to Be No Doubt of Excellent Prices to Be Had in Present Season

Throughout the continent there are predictions that the hog supply will be short. Even if the price of feed is high, as it is at present, it would be advisable for farmers to keep at least some breeding stock. The attractive prices which have been paid for hogs in the market, and many animals on the market, but there is a limit, which has now been reached.

Up to 1914 Canada's export trade with Britain in hog products decreased and Denmark's increased. From 1914 Canada's export bacon has fallen, and Denmark's has gone the other way, showing a falling off of 72,000,000 pounds. For the fiscal year ending March 31, 1914, Canada's export of hog bacon totalled 23,630,861 pounds. For 1915 the total was 72,036,025 pounds and for 1916, 144,150,309 pounds. The United States experienced a like increase.

But so far as Canada is concerned there is another side to the shield. On June 30, 1916, there were fewer hogs in the market than at any time during the previous 10 years, and from 1911 to 1916 there was a decrease of 10,000,000 hogs. The state of affairs, as well as the opportunity that is before the country, is stated in Pamphlet No. 21 of the livestock department at Ottawa, entitled "The Bacon Hog and the British Market" for which John Bright, livestock commissioner, and H. S. Arkell, assistant commissioner, are jointly responsible, and which has been freely applied to the publications branch, department of agriculture, Ottawa.

Particularly unfortunate, says the pamphlet, is the decrease in the fact of the rare opportunity that is offered us to further extend our "Wiltshire side" of the market. The pamphlet points out that while we are not for specified reasons to occupy the market for fat hogs, that for the bacon hogs we are well equipped.

They also call for regularity in the supply. "We cannot," they say, "go into the market for six months, and then again go out of it for six months without having an average price that is impossibly both to producer and packer." A good crop of bacon hogs is required, each month of the year. "If each farmer," the pamphlet says, in conclusion, "maintains even one or, most, two sows and manages these and other offspring properly, a market can be built up in Canada a very important and remunerative industry, not only yielding a permanent profit to the farmer, but also commercially assisting in preserving the commercial stability of the Dominion."

"In a word, we need a good crop of hogs, not fat ones, but bacon. It will be a misfortune if, because of shortage of grain, all pig-stock is sold off that is in Clover bay, turnips, and geod and skins, and the feed for broad sows and even for young growing stock, and may be trusted to bring them out in good shape in due time. These buildings, stables, and dwellings, will pull the youngsters along in satisfactory style and keep them growing at least one good type of sow. Undoubtedly many farmers are selling their females. Most of them could better afford to stay in the business. We have yet to meet the man who doubts the good prospects of next year's market."

A New Epoch

If there are such things as epochs, a new epoch is at hand. The measures now being taken in Europe are war measures, and will pass with the coming of peace. They will not pass entirely, for they are to be continued in some way as will permit any nation to fall back into the lower national organization of the past. Every nation that has been fighting has been heightened a people's powers, to economize their collective resources, and more effectively directed their collective energies. It will be natural for them to be successful and can be applied under peace conditions in "the world after the war" that is, in a world without strains of economic reality.

Chicago Tribune.

Two ladies on the other side of the border were holding a statistics conference on morning on the troubles of life, and husbands in particular.

"I didn't wonder at some pair wives have to leave the themes out of their husbands' trouser pockets," remarked the one.

"I can say I like them under hand," said the other, responding the second matron. "I just turn my man's breeches downsize up, and help myself on the carpet."

Newspapers Suspected in Egypt

Shipments of goods to Egypt have been cautioned by one of the Egyptian railway companies not to use newspapers or magazines as packing material since the times of the censorship suspect an anterior motive, when uncensored printed matter enters bellicose lands.

Canadian Fish for Soldiers

Weekly Ration Planned for the British Army, Also for Anzacs in Hospital

The Government has been notified from London that the British authorities have completed arrangements for giving the British troops a regular ration of Canadian fish. A weekly ration is planned, and orders will be sent out for 1,000,000 pounds of frozen fish from Canada. The new demand will further stimulate the Canadian fish industry in all directions.

Arrangements for the supply are being made through Major Hugh Green, who has been sent to London to assist the Canadian fish ration supply for the Canadian troops overseas, that when schemes prove to be successful, the Canadian Board of Trade asked Major Green to go back to Canada and arrange for a still bigger supply for the Canadian army.

New Zealand and Australia have also arranged to give their men in hospital a weekly fish ration through the Canadian Fish Supply department in London.

The Issue of the Twentieth Century

Henry A. Wise Wood, in the New York Tribune

The issue of the twentieth century has now been declared, and is apparent. Two orders of civilization are contending for mastery of the world—Anglo-Saxon and German. At its end which shall prevail? We have seen that, despite its support by Slav and Latin, Anglo-Saxon civilization, in the Eastern Hemisphere has but narrowly escaped disaster. Knowing this, we ask ourselves what would have become of it had Great Britain lacked but a single naval vessel to add to its brink, when upon less than a million tons of metal afloat depended the freedom or subjugation of the Anglo-Saxon race. In the same way, Germany, revelling in her achievements, unpunished, forgiven, unshorn, of her might, and with the hands of her people cast down, will refer to the gravity of the situation or to the opportunity that will be left to the farmers and breeders, not to point out that while we are not for specified reasons to occupy the market for fat hogs, that for the bacon hogs we are well equipped.

Particularly unfortunate, says the pamphlet, is the decrease in the fact of the rare opportunity that is offered us to further extend our "Wiltshire side" of the market. The pamphlet points out that while we are not for specified reasons to occupy the market for fat hogs, that for the bacon hogs we are well equipped.

Because of the foregoing, it is more or it is wise from the standpoint of eventual security for us to be the makers of peace so long as the rod goes off innocent unless there is the charge of victory? Will no?

John Bright

Germany Needs a Lesson

One Absolute Essential of This War Is to Uproot Prussian Tradition

That War Pays

Were the war to end tomorrow without Germany being required to impose a heavy indemnity, Scandanavia and Rumania for the damage done by Germany's lust for conquest, the actual condition would be that the war crime nation would be the one that crime would be.

At the exams, following the Gil-

bert lectures on banking at King's

College, the 22 candidates

gaining over 80 per cent. made

good to clerical work, and brings

the beam at 20 tons, nearly

twelve times the weight of Austria's

biggest bell, and three bells of

the Prussian church towers were

substituted in their place. Russia,

at any rate, can look with equanimity at the twenty-ton bells cast

in the city of Vienna, that

with the side that can do the biggest

things in that direction there is an

enormous reservoir to draw from in

The Germans, with all the difficulties of a difficult country for artillery, but the French gunners there have accom-

plished a number of feats of which

the world is well aware. The

point on one of the tree-hidden roads

of the forest which is shown to the

visitor as the scene of the exploits

of the Prussian army, is not more

than a distance of 200 yards from

the front trenches, but with the aid

of a compass and a map, he blazed

the road at the line where he was

posted. He knew the country well

and scarcely wasted a shell, so efficient

were his map and compass."

Heroes of the Clergy

In his interesting book on the war,

"The War Was a Victory," Sir

C. P. M., of Toronto, plays a striking tri-

but to the heroic conduct of the

Canadian chaplains who have gone to

the front.

In other words, out of the total

number of cattle passing through

the stockyards on 7,793 days in 1916,

out of the first eleven months of

1917, 25,223 cattle passing through

the stockyards on 7,793 days in 1917,

56 per cent. stayed in Canada.

The actual number of cattle exported

in 1916 was 20,236,000.

Out of the winter shipments this year, 8,289 were

distributed in Manitoba, 10,030 in

Saskatchewan, and 6,985 in Alberta.

As regards the torturing rack,

When I've tucked away the mugs up,

And I've finished wiping up,

On the table the mugs and saucers

I drains the little teapot in my old

man's favorite cup,

I 'm as the first time I've 'ad all

I takes the ink'n paper an' the

cross-nibbed pen as well,

A letter to my old man to send,

I know 'ow to split

But I'll understand the crosses

I tell 'em 'ow baby's growin', she's

I've breeded young Fifer,

Fifer swank 'im 'cause he's

the queen was grand;

Yesterdays' broom's on the boozie

again, not 'alf!

My scrawl is somethin' chronic, an'

I 'm as op's as cough is on the

teaspoon.

I can't find words to tell 'em all the

things I open' and fears,

But I'll understand the crosses

at the end.

Siberia a Dream of Wealth

Battles Won by Applied Psychology

Dr. Stanley Hall Says French and Germans Figure on Nerves

The superior effectiveness of the French and German soldiers in the present war is due to applied psychology, according to a statement by Dr. G. Stanley Hall, president of Clark University, before members of the American Association for the Advancement of Science in New York City the other day.

"The war has given the world its greatest lesson in scientific ethics," Dr. Hall said. "The Allies, at least, of Germany had gone in casting off the culture of a century and a half, and in their education, acquiring a new soul that made it the most hard headed, practically efficient nation the world has ever seen."

Other metals that promise wealth to their explorers are copper (5,600 tons of which were mined in 1913), gold (200 tons), and manganese (1,000 tons), antimony, zinc, mica, manganite, sulfur, salpeter, graphite, naphtha, quartz, sulphide and sulphate of soda with a few others.

Great Kuznets basin possesses also great deposits of iron ore, estimated to contain 16,500,000 tons, iron ore in large quantities in many other districts.

Fruit Growing in British Columbia

Has Become World Famous for Quality of Fruit Grown

Canada's Pacific province of British Columbia is famous for the world for the fruit that is raised there. Although the industry is not as large as in the United States, the value of the fruit produced is high.

British Columbia is the largest producer of fruit in the world.

The province of British Columbia is the largest producer of fruit in the world.

The province of British Columbia is the largest producer of fruit in the world.

Getting at The Truth

Will Be Renewed Study of Events of
the Days That Preceded
the War

Paul Rohrback, the eminent German writer and publicist, in an article translated and transmitted by The Globe's Berlin correspondent, discusses the immediate responsibility for the beginning of the war, a theme that most Germanologists either keep away from or side over in an incomplete way.

To the question of why Germany did not accept any one of Grey's conferences prior to Dr. Rohrback's answer that it was impossible for Germany to take a seat at a conference table while Russia mobilized, he continues: "The British foreign minister had telegraphed to Petrograd, 'If you continue mobilization we remain neutral.' Russia might have mobilized, but we would have occurred.

The chief defect in this answer is the assumption that the very conference proposed was the issuance of the Russian mobilization order. The unchallenged record shows that it came before. Germany refused to back the idea. He had said she could not be sure of success before a European Arapocaps. Dr. Rohrback, by ignoring the facts, does not give a true report of German scholars for themselves.

The Russian mobilization was a response to a prior Austro-Hungarian mobilization. If the German government had not forced peace it would seem that when it demanded demobilization of Russia it would have demanded the same from Austria-Hungary. The note was to contend that Austria-Hungary could summon her reserves to the colors while Russia could not. If Germany should have pledged herself to neutrality, Germany should have pledged herself to neutrality if Austria-Hungary had demobilized.

If the war has any merit one way it has merit the other. The time approaches when there will be a renewal of a study of the ten days preceding the war.—From the New York Globe.

Rust Epidemic Made Scarcity of Seed Grain

Farmers Warned to Beware This
Year in Their Sowing

In order to assure a heavy grain harvest for Canada in 1915, the Dominion Experimental Farms have recommended to farmers to exercise special care in the sowing of the right kind of grain for sowing the spring wheat crop.

It is known that the grain rust epidemic of the past season in the West will be causing grave concern to many farmers as to where to obtain seed grain.

Grain from a crop damaged by rust is frequently of poor quality, and not fit for use as seed, unless special precautions are taken. The first rule, however, is much danger that this seed will again produce a rusted crop, but because the grain is shrunk and immature; such seed is known to yield poor and feeble crops.

The safest seed to use is the best grade probably from rust-free crops, provided, of course, that the germination is normal.

The use of this class of seed may not, however, be universally possible, and from the standpoint of a considerable distance, where rust was not prevalent in the West and very little seed remains over from the harvest of 1914.

Thus, perchance, Western farmers at least will have to sow much of the grain damaged by rust. Where such grain is to be used, it should be carefully and thoroughly cleaned, screened, until only the heaviest kernels remain. The use of seed prepared in this way is known to ensure a good crop yield, when the people themselves fail to show much interest in the war and other world affairs. The news is being spread by the efforts of the radio and educational institutions. The British Sloane of MacCann announces, for example, the founding of a newspaper called the "Rural Londoner" for each village, the other papers are to be used when the people themselves fail to show much interest in the war and other world affairs. The news is being spread by the efforts of the radio and educational institutions.

Farmers should take these precautions to enable them to make up for the considerable losses of the past season. Early sowing of the best of early maturing varieties, and sowing rather more per acre, these are well-known precautions to be taken against damage from rust.

Rustiest of the Grand Fleet

A Canadian lieutenant on a British ship in the Grand Fleet, in a recent letter to a friend in Canada, said:

"Since the war began the navy has grown like a 'green bay tree.' It has been pruned of old and some new branches have been branched out as by magic. Barring whispers, in bated breath, nothing was known of the strength until within a week of the entry of the British into the war, the anchor chains rattled down with halting due to us."

"An eye gazed at these great legitimate and considerable power is the marvel of the age, one that gives the full meaning of what Britain's wartime manufacturing power means to a century.—London Chronicle."

Applicant: Is there an opening here for a live-wire, hustling college man?

Once Boy: Naw, but there's going to be a break in it, the salary raised by tomorrow night.

Heroic Flying Men

Courageous and Daring Tactics of the British Airmen

French aviators have a profound appreciation of their services. We are told that in a recent issue of "The Globe's" Berlin correspondent discusses the immediate responsibility for the beginning of the war, a theme that most Germanologists either keep away from or side over in an incomplete way.

To the question of why Germany did not accept any one of Grey's conferences prior to Dr. Rohrback's answer that it was impossible for Germany to take a seat at a conference table while Russia mobilized, he continues: "The British foreign minister had telegraphed to Petrograd, 'If you continue mobilization we remain neutral.' Russia might have mobilized, but we would have occurred.

The chief defect in this answer is the assumption that the very conference proposed was the issuance of the Russian mobilization order. The unchallenged record shows that it came before. Germany refused to back the idea. He had said she could not be sure of success before a European Arapocaps. Dr. Rohrback, by ignoring the facts, does not give a true report of German scholars for themselves.

The Russian mobilization was a response to a prior Austro-Hungarian mobilization. If the German government had not forced peace it would seem that when it demanded demobilization of Russia it would have demanded the same from Austria-Hungary. The note was to contend that Austria-Hungary could summon her reserves to the colors while Russia could not. If Germany should have pledged herself to neutrality, Germany should have pledged herself to neutrality if Austria-Hungary had demobilized.

If the war has any merit one way it has merit the other. The time approaches when there will be a renewal of a study of the ten days preceding the war.—From the New York Globe.

Russians are Eager
For News of Battle

Villagers Take Newspapers and
Throng the Inadequate
Libraries

Interest in the world war and a desire to know what the allies are doing and who the "Little Father" are doing and who the allies, who are battling with them against the Teutonic armies, are, have caused a great demand for news in the smaller towns and the popular libraries and reading rooms established several years ago by the government. Unfortunately, according to the recently published "Moscow," these institutions are in no condition to supply information wanted, as most of the books they contain treat of the war in a dry, dead, and uninteresting manner. Some of the books are pronounced harmless by the so-called Commission of Scholars appointed some time ago, which really are adapted to the enlightenment of the people, are closely watched by the police, and are closed a great deal. The police, who are the chief promoters of the Popular Education of Kursk, which was dissolved by government order, alone maintained a small library and reading room.

It was directed by Dr. Dolschenko, a member of the first and second Duma.

Nevertheless, Russians are using the best of their limited opportunities, and the number of subscribers to the libraries and reading rooms still has increased more than 60 per cent. in the course of the war, despite the fact that so many of the peasants are at the front. A landowner in Central Russia sends in the following letter to the editor of a newspaper for news shown by the people of his neighborhood: "I am now literally the village scribe, as all of the educated people have left the village. Every day I receive letters from the women. Every day I receive letters to my house to have letters written to their loved ones in the field. Sometimes it gives me particular satisfaction to see the letters taken by the villagers in the newspapers. Formerly I received only one paper for our village. Now we receive three or more newspapers. Peasants have taken up a collection and they subscribe for four metropolitan newspapers for each village."

Thus, perchance, Western farmers at least will have to sow much of the grain damaged by rust. Where such grain is to be used, it should be carefully and thoroughly cleaned, screened, until only the heaviest kernels remain. The use of seed prepared in this way is known to ensure a good crop yield, when the people themselves fail to show much interest in the war and other world affairs. The news is being spread by the efforts of the radio and educational institutions.

The news is being spread by the efforts of the radio and educational institutions.

Farmers should take these precautions to enable them to make up for the considerable losses of the past season. Early sowing of the best of early maturing varieties, and sowing rather more per acre, these are well-known precautions to be taken against damage from rust.

Rural London

There are 14,000 acres of land, given from public gardens lying idle in London, says the superintendent of the Vacant Land Cultivation Society. Even now, according to him, there may be 10,000 more acres of land which the information that there are still over 3,000 acres within the metropolitan area used as farm land. Also, the Londoner has eight agricultural farms—nine of them in Woolwich and in pre-war times had already 300 acres devoted to wheat and barley. The windmill, which the windmill still in use, though electric, now supplies, its motive power. This stands in Corwall road, Brixton, and is the family of millers for over a century.—London Chronicle.

The Art of Boiling Within

"How would you define diplomacy?"
"Why, diplomacy is the art of conducting a quarrel without becoming visibly angry."

Have a Bottle Handy!

Sloan's Liniment is assigned its place among the trusted family remedies in thousands of medicine closets. Confidence in it is based on the uniform effectiveness with which it banishes the pains of rheumatism, neuralgia, gout, rheumatic stiff muscles, bruises, sprains and strains. Cleaner and easier to use than musky plasters or ointments. It penetrates and relieves quickly without rubbing.

At all drugstores, 25c, 50c. and \$1.00.

Sloan's Liniment
KILLS PAIN

The Squire's Sweetheart

BY
KATHARINE TYNAN
WARD, LOCK & CO., LIMITED
London, Melbourne, and Toronto

(Continued.)

"I don't object to his Liberalism," said Hilary, wondering why she should behave as though it were a personal matter. "Plenty of my friends are Liberals. He is a sleek hypocrite. He is gradually getting to be a power in Silverdale. He bought up Dobie, the other grocer, and when he's rich enough, he'll buy him. He is acquiring property rapidly all round the country. He is building rotten cottages for the poor. Things are selling well, you see. But why am I saying all this to you? It gives me no possible interest to you."

"Except that it is our landlord. Even in the New Cottage is Jerry-built, I keep to the old one, so I have no cause for complaint."

"You keep to the old one?"

"Yes, you see we should be a little congested here. I like to have people round for week-ends. We would miss London too much. There are generally men and don't give much trouble. We have a woman in from the village. There isn't really much room for sentiment in these places. You hear everything that is said through the walls. I love the old cottage. It is a little bit dark, but the walls are thick and deep. One feels really in the contrary there; here it is suburban."

The kettle boiled over and he made the tea. The kettle of Mr. Cooper, who had forgotten while he poured the water on the tea in the cold pot from a height, explaining that the great thing was to aerate it.

He carried the tray as though he had been an old friend of the house, and Dolly followed him with the cakes and bread and butter. She put the tea on the side-table, and the table, and Hilary carried a cup to Mrs. Egerton, where she sat once more on the little dais; the child, a lovely girl of ten or three years old, awoke now and sat on the floor in her mother's gown and talked to a picture book.

Hilary's tea was highly commend-

ed. Dolly described the manner of its making to her brother, with a humorous shyness, poking sly fun at the tea-maker. Her voice was soft and sweet. It was another aspect of her that Dolly had not seen before. She did not include her sister-in-law in the jest; nor did Mrs. Egerton laugh when her husband, the Squire, spoke. There was an understanding between the brother and sister into which the wife did not enter.

Again the subject of Mr. Draper came up unexpectedly. The Squire praised the tea.

"Our landlord's at-five shillings a room is he? London? Or is it a pence? I have forgotten."

"Neither," said Mrs. Egerton unsmilingly; "it costs two shillings a pound, and it's very good."

"I am glad he keeps something good, besides the texts all over the shop," said the Squire dryly.

"Oh, he's a bad sort, for a lay person, but he has a good heart. He goes to his service on Sunday?"

Subject: All Men are Liars.

"The old-fashioned garden was a picture. The flowers and the bloom around the vegetable beds. Wallflowers were just bursting into flower. Arsenes were brilliant orange. The little red poppies were in bloom. The flowering currants were in bloom. The birds sang on all the bushes; and the vegetable beds were packed within their light borders."

The old-fashioned garden was a picture. The flowers and the bloom around the vegetable beds. Wallflowers were just bursting into flower. Arsenes were brilliant orange. The little red poppies were in bloom. The flowering currants were in bloom. The birds sang on all the bushes; and the vegetable beds were packed within their light borders."

"Dolly is a born countrywoman,"

Egerton said; "or, she is better than a born countrywoman, for she brings in the townswoman's light of life. All this is hers. She goes to French gardening, intensive culture, and the rest of it. Cooper does a lot of work for her, for all of us. It is amazing that he should be content to loaf about here—a clever boy, he is. He has been talking of going back to America ever since we came."

"Of course it was no business of mine," said Hilary. "I know all about it. I was at Black Rock Hill the night of the accident. Rushing over, too, when I arrived there, I said, 'What's the matter? Is there a man here?'"

Hilary Strangways, watching Dolly Egerton, who had come in from the garden and darken; something furtive, half-fearful, came into its expression. He wondered what could have disturbed her. Her eyes were minutely fretted as when a crier who breaks up the surface of the water.

"Deserter, perhaps?" suggested the Squire. "And then—oh, I know him all right. He was at Black Rock Hill the night of the accident. Rushing over, too, when I arrived there, I said, 'What's the matter? Is there a man here?'"

"I am not a trifling, trifled man. When the soldiers came on the scene he disappeared. I never connected his disappearance with the accident. Must you mention him?"

"Don't you imagine a good deal Leo?" Dolly asked in a chatty voice.

"Mr. Cooper told me he had served in the American regiment when he was there."

"He knows a few things that he never learnt from an American sergeant-major," said the Squire, answering her, nothing about him. He doesn't know. All sorts of other things too. He's Dolly's right-hand man about the fowls. He does too much for us. He can't earn money. There's just a bit of a gentleman in him somewhere that forbids that. He has built all Dolly's houses, and he has built all the stables and he has rigged up the stable. He is just now putting up a garden-shelter for my wife. There was a lot of old wood lying about the place. Louis' ungrateful. She can't bear Cooper. But, if he was the same

as he held a finger to the miniature Dash, who was gravely stroking Dash's cheeks. The tall fellow had bent from his height to hold her finger or rather to let her clasp his hand who had given such valuable help the night of the accident, he was at least fairly young—in full vigor of manhood.

(To Be Continued.)

As Pitt Described It

The situation is precisely that which Pitt in one of his greatest speeches, 116 years ago, described. The world is no better to-day. We see no possibility at this moment of concluding such a peace as would justify that liberal intercourse which is the essence of real safety, no more than we see the end of the anxieties of war, or of restoring to us any of the advantages of established tranquillity. As a lover of peace, I do not sacrifice it at the grasp of a power which is not substantially within my reach. Why, then, do we refuse peace? Because it is a sleep, because it is perilous, because it is a dream that cannot exist."

Good Hunting
A young Swede appeared at the license judge's office and asked for a license.

"What kind of license?" asked the judge.
"No," was the answer. "Aye tank Ayre bane hunting long enough. Aye want marriage license."—Every body's Magazine.

GinPills FOR THE KIDNEYS MARTYR TO PAINS IN THE BACK

Halifax, N.S., Jan. 15, 1818.
About eight months ago I read your advertisement in one of the papers. I have since had a sample of GinPills for the kidneys. I had been taking pain-killers for a long time, and I was not satisfied with them. I had decided to try GinPills. I took a box and sent it to you. I found myself for the first time in years perfectly free from pain.

Yours truly,
Mrs. (Jane) Percy.

All druggists sell GinPills at \$2.50 a box. Sample free if you write to
NATIONAL DRUG & CHEMICAL CO. OF CANADA, LIMITED, 2020 Yonge St., Toronto, Ont.

The Only Way

The Irish sergeant had a squad of recruits on the rifle range.

He tried them on the five-hundred-yard range, but they did not seem to hit the target. Then he moved them on the three-hundred-yard, the two-hundred-yard, and the one-hundred-yard ranges, in turn, but still they did not seem to hit the target.

When they had all missed on the shortest range he looked around in despair. Then he straightened up.

"Fix bayonets! Char-ge!"—Every-body's.

Serve Save Produce

EVERY ONE CAN do something for his country

Some can bear arms
Some can produce food
Some can make munitions
Some can give money

It is the privilege of all to help.

YOU CAN SERVE by Fighting—Working—Saving—Giving

This is NATIONAL SERVICE
Are YOU doing your part?

ALL EYES turn now to the Canadian Farmer, for he can render the Empire SPECIAL SERVICE in this sternest year of the war.

But—our farms are badly undermanned—25,000 men are needed on the land.

With insufficient help, the Man on the Land fights an uphill fight to meet the pressing need for Food.

CITY and TOWN can help.

Municipal Councils, Churches and Schools, and other organizations, both of men and women, can render National Service by directing all available labour to the Land.

Farmers themselves can exchange labour. School boys can assist.

Were you raised on a farm? Can you drive a team? Can you handle fork or hoe? If you can't fight, you can produce. Spend the Summer working on the Farm.

Let every man, woman and child in the Dominion who has access to Land, no matter how small the plot, make it produce Food in 1917.

For information on any subject relating to the Farm and Garden write—

INFORMATION BUREAU
DEPARTMENT OF AGRICULTURE
OTTAWA

DOMINION
DEPARTMENT OF AGRICULTURE
OTTAWA, CANADA.
HON. MARTIN BURRELL, MINISTER.

Test Your Seed Grain

The Department of Agriculture wishes to urge upon farmers of the Province the necessity of testing seed grain for germination and grain purity. It is through the different seed testing laboratories in the Province where farmers' seed is being tested, is convincing proof of this necessity. Numbers of samples of oats have been forwarded to these laboratories which germinate in the case of oats at 17 per cent, in wheat 25 per cent, in barley 30 per cent. The appearance of a sample of oats is no guide as to its germinating power. Oats, which will weigh up to 45 pounds per bushel and appear perfectly bright and plump, may germinate very low. The external appearance of wheat and barley is a better indication, but should not be relied upon.

Some of the grain has been injured this year by his hoppers. On account of the damp harvest and also on account of the fact that there were several snow storms during threshing a great deal of the grain is showing tough, with the result that some bin heating has taken place and naturally, this reduces the germinating strength. The Province is fortunate in that there is plenty of good seed grain to be had. This year, when foodstuffs of all kinds are at a premium, it is important that the farmer should take the chance in the matter of sowing poor seed. Though the seed may not be very favorable and may not bear well the work of cultivation may be done, the use of poor seed may prevent the possibility of reaping even a fair crop.

Some people are of the opinion that if grain shows a low test for germination, all that is necessary to do is sow more per acre, anyone who will take the trouble to test a sample of frosted grain in a box of earth at home will soon be convinced that this is bad practice. There is a very great deal of difference between grain which germinates in five days and grain which shows a low test, as in seven or eight days and shows a weak root. It means that if the spring weather is unfavorable, that is if cold and dark weather continues, with light frosts, the grain which shows a weak root will stand less of these adverse conditions than will the strong, vigorous grain produced from seed of strong germinating power.

Under these conditions the Department strongly urges each farmer to either test his seed at home or send a sample in an envelope to one of the following seed testing laboratories—

School of Agriculture, Charslton; Oats; Vermilion; Seed Branch, Dept. of Agriculture Edmonton; Seed Dept., University of Alberta, Edmonton;

Dominion Seed Laboratory, Alberta.

The testing will be done free of charge and a report made direct to the farmer.

It is quite possible for a man to do his testing at home by counting out a hundred seeds from a sample, and planting them in a box of earth which is kept moist and warm. If these seeds germinate in forty or sixty-five per cent germination, the seed will be good to use (unless the growth is particularly vigorous and strong). There is a distinct advantage in making the test at home, in that the vigor of growth may be noted from day to day and the test carried over a period of ten or twelve days.

If anyone finds it impossible to secure good seed in his own district, the Department of Agriculture at Edmonton will be pleased to supply information as to where good seed may be obtained.

DUNCAN MARSHALL,
Minister of Agriculture

Calgary Horse Show and Bull Sale

The Spring Horse Show and Auction Sale of Bulls to be held at Calgary, April 10th to 13th, by the Alberta Horse and Cattle Breeders' Association, promises to be a great success. For the sale there are no less than 232 Shorthorns, 108 Herefords, 36 Angus, 7 Galloways and 1 Red Poll. This is far the best sale ever held on this continent, and will provide a splendid opportunity to purchase bulls for breeding or for the range.

The freight is paid on animals purchased at the sale to the purchasers nearest railway station for a nominal fee. The cattle will be judged on April 10th and the sale will commence at 9:30 a.m. on the 11th and continue for two or three days. Messrs. S. W. Paisley of Lacombe, and J. W. Dunn of Calgary, are the auctioneers.

Catalogue of entries may be obtained by applying to the Secretary.

The Horse Show will be held at the

same time, and entries include horses from the Western Provinces, besides the most interesting horse shows classes of heavy four-horse teams and various classes and saddle classes, there will be hurdle jumping and high jump in which the

famous cow horse Smokey has been entered.

The evening horse show programme also includes tent pegging by the Royal Northwest Mounted Police, stock parade, and a part of Canada's highest prairie horse bolt competition, won by Mr. Frank Collicutt for \$1,000 and the \$4,000 cow. A new feature will be a push ball competition, which is played somewhat like football, with eight men on a side. The ball is six foot high and costs no less than \$550. Entries for the horse show have closed, and the Exhibitions Grounds at Calgary now present a busy scene preparing for the show. A new sale ring is being erected 50 by 100 feet adjoining the horse show building, which will be a great convenience to the cattle sale. Most of the stables have been moved over to the west side of the grounds by the Ministry Department to assist in providing accommodation, but even after using all available accommodation, fully 200 bulls would have to be under canvas.

There will be single rates in force from allAlberta stations, good going to Calgary April 10th to 12th, and good returning up to the 16th.

Catalogues for the auction sale may be obtained by writing to E. L. Richardson, Secretary, Alberta Live Stock Association.

Rodney News.

Affairs were rather quiet in Rodney this week owing possibly to the preparations for spring work, and the general topic of conversation seems to have fallen back into its usual channel of war and peace. The young people had a dance at the school house last Friday evening, testing the inclemency of the weather thereon. Everybody thoroughly enjoyed themselves they always do at a social gathering in Rodney, and under the able direction of Mr. M. S. Hayes, who was floor master, this particular function was voted a success.

Mr. L. S. Allen's departure deprived Rodney U.F.A. Local of its president we are informed that Mr. D. J. Miller was elected to that highly honoured position. Rodney is proud and justly so of the way their Local has conducted its business since its reorganization some three years ago, and its fame has spread abroad as being a very enterprising local. We have every reason to believe that under the able leadership of Mr. Dave Miller, assisted by such men as Messrs. G. T. Miller, M. S. Hayes, Mr. Ian East and Mr. Tom Fitzgerald, this Local will eclipse even its own record. At any rate we are expecting great things on Dave as he takes a keen interest in all U.F.A. matters.

By the way, Mr. Dave Miller is going in heavily for cattle these days. Of course there are one or two other big buyers in this country for instance P. Burns and Co., and G. T. Jones.

There are no weddings to report this week only, still the usual rumours give us something to talk about.

Mrs. Lavinia MacKay, who with her sister Lavina, returned home last Monday from Swallowell, where they had been spending a few days with friends. We were very sorry to hear that Miss Lavinia has been suffering from nerve trouble and hope she will soon recover. We hear that she has been suffering from a nervous breakdown and for some reason or other nobody seemed to know her secret, but we are all sorry for Lavina but sorry, and all wish her a speedy recovery.

It was good to see the familiar face of Mr. Walter MacKay at church Sunday. He is in good health and we will be well and strong again in a short time.

Mrs. Dube is visiting her relatives and friends at Rodney and if anyone can account for anything she is thoroughly enjoying herself.

Van Arnold, junior, who has been ill this last two weeks, had a relapse on Sunday which necessitated the services of Dr. Whalen. The doctor is not too sure, however, and we are led to believe that he will soon be convalescent.

Mr. and Mrs. Weston Luton have taken their residence temporarily in the house lately vacated by Mr. Boggs. We learn that Mr. Weston is not too sure of his future, however, and we are led to believe that he will soon be convalescent.

Mr. and Mrs. Weston Luton returned to their future home at Calgary on Tuesday.

SAN TOY.

BIRTH.
To Mr. and Mrs. Geo. Bennie, on March 21st, at Crossfield, a son.

DEATH

SMITH.—At Coronation, on Monday, March 26th, Drs. Adeline Smith, aged six months, beloved daughter of Mr. and Mrs. A. S. Smith of Calgary, late of Crossfield. The remains were taken to Calgary on Tuesday afternoon. The funeral took place on Wednesday afternoon, Rev. Alex. Ester officiated.

Auction Sale.

JUDICIAL SALE OF FARM PROPERTY

PURSUANT to the Judgment and final Order for Sale made in a certain action in the District Court of the District of Calgary, No. A.6292, there will be offered for Sale by Public Auction at the Post Office in the Town of Crossfield, in the Province of Alberta, by Victor G. Grant, on SATURDAY, the 31st day of March, 1917, at One o'clock p.m., the following Lands and Premises :

The South East Quarter of Section 4, in Township 23, Range 8, West of the 5th Meridian, with the buildings erected thereon.

The property will be offered for sale subject to the reserved Bid which has been filed by the Contractor.

Canadian Reserve Militia.

COMPANY ORDERS

By CAPT. A. A. HALL
DRILL. Under full dress uniform Company parades at the Old Fellow Hall every Monday and Thursday, at 7 p.m., for Drill.

ATTESTATION. All members who have not yet attested may do so at any time by calling on the Adjutant at the Post Office, who now has the authority to administer the oath.

RECRUTS. It is requested that all members do their best to encourage their male friends to join up.

W. D. DEEVES,
Adjutant.
March 29th, 1917.

Visitors to the Ranch of Frank Collicutt

Members of the animal husbandry class of the Agricultural School inspected the Horseshoe herd of Frank Collicutt at the Willow Springs Ranch, on Saturday. They were accompanied on their trip by Prof. A. E. Meyer, instructor.

Others present at the inspection were: Hon. Duncan Marshall, Hon. C. W. Fisher, Prof. Dowell, James Clements and Mr. Taber.

The main attraction in the herd, of course was Gay Lad 40b, the \$1,000 imported bull. The classes conducted judging contests among the herd, and were impressed with the variety of white faces owned by Mr. Collicutt.

Crossfield School District No. 753

The REGULAR MEETINGS of the above school Board will be held in the School House at 10 a.m. on the 1st Monday of each month, January, March, May, July, September and November.

All matters of business pertaining to this district will be attended to at this meeting.

The office of the Sec. Treas. is at the Crossfield Drug Store.

A. E. Thomas, Chairman.

Merrick Thomas, Sec-Treas.
